## **THINK**

Coming up with ideas for making Digital Citizenship more visible to students was turned over to the HOPE Squad. Also, the HOPE Squad presented an assembly about handling stress.

## **Trustlands Extra Money**

The money we had left over from Trustlands was used to hire two more technicians—one for Math and one to work with students assigned to Study Hall.

## **Grades**

We had more F's than usual this year. In hopes of turning that around, a study hall was created run by Janna Manookin, with a tech assigned to her, and also a new math tech was hired. This plan worked well and decreased the number of F's considerably.
